

WebENTRA R300 Secured Encryption (SE) Reader

totallyintegratedIPsecurity

The **WebENTRA R300** series is a secured encryption NFC reader capable of handling demanding contactless smartcard reader applications. With a 32bit ARM Cortex -M CPU and built-in hardware Cryptographic Acceleration Unit it can support AES128 and 3DES encryption algorithms. Secret keys for encryption can be stored in either Secured Access Modules (SAM) or internal reader memory.

The R385 has a color TFT LCD with touch screen supporting scrambled PIN entry that greatly enhanced security. Options are available for touch capacitive PIN entry or reader only configuration.

The R300 series offers many connectivity options. The built-in RS485 interface support both the ADNET and the OSDP protocols. For connection to traditional controllers, Wiegand interface is also available.

WebENTRA READER Series

Key Features

- NFC Contactless smartcard reader technology supporting NFC, ISO14443A/B and FeliCa
- Built-in Buzzer and 3-color LED indications
- RS485 interface to Controller supporting ADNET and OSDP protocols
- Backward compatible to Wiegand interface to Controller
- Weather-resistant and Vandal-resistant housing

OPTIONS:

- Touchscreen Color LCD with scrambled PIN entry
- Touch Capacitive keypad
- Card & Data Encryption with 2 SAM
- PRIME & CORPORATE Secure Encryption with encryption key in reader
- Optical Fingerprint with 2x 4500 templates
